

**ATTENTION: Chronic pain sufferers desperate for relief...**

## **Scientists Crack the Code to Nature's 10 Most Powerful Pain Relievers**

**Clinically Proven to Reduce ANY  
Kind of Pain—Safer, Faster, More  
Effective than Pills...  
And it all starts with this simple  
mouse...**

### **Is a lab mouse living a better life than you?**

Well, it might seem like it if you're one of the 116 million Americans living with persistent pain. You see, a scientist working for the National Institutes of Health noticed that lab mice **NEVER** contract arthritis, one of the common causes of pain in humans.

He discovered that Mother Nature was protecting mice with a rare substance found in their blood that keeps them immune from the crippling effects of arthritis...

Sensing a breakthrough, the scientist isolated the substance, mixing it up in batches in his lab. He then tested it on himself to relieve his own arthritis pain.

The results astounded him...

***The all-natural substance protecting mice worked on him as well. It stopped his pain for good!***

This discovery triggered a frenzy among scientists worldwide to conduct their own tests to prove for themselves if genuine pain relief had been under their noses all along—in the form of the common lab mouse!

### **Nature's #1 Pain Buster Works Time After Time!**

Their results were jaw dropping...Their studies clinically proved this "lab mouse" substance helped with a laundry list of pains...

- ✓ **Joint pain:** In a San Diego Clinic Immunological study, patients with varying degrees of joint pain were given the lab mouse formula. In the group suffering from severe to crippling pain, subjects **reported 80% to 100% relief of pain with a return of 80% to 100% mobility.**
- ✓ **Arthritis pain:** In a clinical study, scientists gave this pain buster formula either alone or in combination with other anti-inflammatory ingredients to 205 patients diagnosed with arthritis. Both treatments showed compelling results. Patients in one group alone experienced **over 88% improvement** in joint pain, tenderness and swelling!
- ✓ **Knee pain:** The Journal of Rheumatology reported on a double-blind study of patients with chronic knee osteoarthritis. The group given the ingredient as a topical cream saw significant improvement.

**In as little as 30 minutes**, patients experienced increased ability in balance, walking and the ability to rise from sitting. Incredibly, patients who were normally crippled by knee pain showed significant gains in their ability to climb stairs.

This proven, pain-zapping ingredient is now available to you in a fast-acting cream....

**Rub On Relief® combines the best of nature AND science to produce a revolutionary anti-inflammatory, long-lasting pain relief cream. It works instantly to ATTACK and reduce EVERY type of pain your body throws at you.**

[Photo of Jesse Cannone]

Hello, my name is Jesse Cannone.

When I read about the scientist who discovered the lab mouse secret, I wasn't entirely surprised. I've known for years that some of the best remedies for what ails human beings could be found within the bounty of nature.

But what really caused my heart to skip a beat was that now I had proof... **verifiable, quantifiable evidence** that nature could provide humanity with relief from the misery caused by chronic pain.

As a personal trainer, I've seen the devastating effects persistent pain has on my clients.

Living with pain affects every aspect of your life. . . your work, family life, ability to travel, participate in hobbies and sports. Even simple activities like playing a game of catch

with your children or going shopping for groceries become agonizing ordeals when complicated by pain.

I've also seen the frustrations my clients experience when their prescription pain meds don't work... or even worse, when they endure **medication side effects on top of their pain!**

So, when I read about the scientist at the National Institutes of Health and his pain relief discovery, I was determined to learn more.

I'd already spent years scouring the medical archives looking for an all-natural remedy with no side effects. I wanted to develop a treatment that would work instantly to stop pain—any kind of pain people were feeling anywhere on their body.

The more I researched **Cetyl Myristoleate or CMO**—the rare fatty acid found in mice blood that keeps them immune from arthritis—the more excited I became. I was convinced I'd found the key ingredient to a formula that would be...

## **The Safest, Most Effective Way to Reduce and Eliminate Pain from your Life Forever!**

There's a reason why I made CMO the key ingredient in my breakthrough **Rub On Relief®** formula.

When used in a topical cream, CMO penetrates directly into muscles, tissues, tendons and joints.

Simply rub it on any painful area of your body and you'll quickly put out the flames of chronic inflammation. This pain-relieving ingredient passes through all 7 layers of skin to bring soothing relief in moments.

It cushions the joints, repairs cell membranes and acts as a “moisturizer” on dry and brittle joints.

But the best news I found from the studies conducted on CMO is that it works **with no side effects!**

But I didn't stop there when creating the powerful **Rub On Relief®** formula. As superb as CMO is at relieving pain, I knew I could improve upon its effectiveness by combining it with other therapeutic and homeopathic nutrients.

I could use **the best of science and nature to create an even better, unstoppable pain relieving cream** to help people ease their agonizing pain, regain mobility and start enjoying again all the pleasures life has to offer.

That's when I uncovered the other 9 top pain relievers created by Mother Nature herself.

## Scientists Decipher Nature's Solution to Pain

The next of my 9 pain-fighting ingredients is so simple, common and effective it will probably surprise you. I know it did me. In fact, you won't have to look very far to find it.

It's in your own body.

It's called Methylsulfonylmethane, or MSM for short. It's a naturally occurring nutritional sulfur. MSM makes the body's cells more permeable, allowing nutrients to flow in and out.

In my research, I learned scientists call MSM an effective natural analgesic and anti-inflammatory agent for two important reasons.

First, it blocks nerve fibers from delivering pain messages to your brain. Secondly, it decreases painful swelling and inflammation.

But what really clinched it for me—what truly convinced me I HAD to include MSM in my **Rub On Relief®** formula—was a double-blind clinical trial published in the medical journal, ***Osteoarthritis and Cartilage***.

When studying the effects of MSM on patients with arthritis in their knees, the scientists in this study found that patients receiving MSM experienced significant decrease in pain and physical impairment.

But that's not all. When compared to the placebo group, ***MSM also produced significant improvement in performing activities of daily living***.

If you're living with chronic pain, you know how significant this finding is.

*"Activities of daily living"* is a healthcare term used to describe the things we normally do to care for ourselves. Things like preparing meals, bathing, dressing, grooming and housekeeping.

Sadly, these simple, life-sustaining activities seem like Herculean tasks if you suffer from chronic pain.

If this describes you, then you dream of the day when you'll return to all the things you used to do so effortlessly... all the activities you took for granted before the pain robbed you of your vitality.

And that's exactly why I included MSM—with its remarkable anti-inflammatory, restorative properties—in my **Rub On Relief®** formula.

## Put an END to Your Misery With Nature's 8 Homeopathic Miracles

Many people might have stopped with these first two ingredients in **Rub On Relief®** and called it a day.

By themselves, CMO and MSM pack a powerful one-two punch to relieve and even eliminate most every pain imaginable.

But once again, I went back to my clients for feedback on the kinds of pain they were experiencing. What they told me about their pain was enlightening and terrifying at the same time.

They described a variety of pain...everything from sciatica, back, leg, neck, shoulder, ankle, hand and hip pain. Pain combined with swelling, muscle spasms and burning sensations. Pain that affected them emotionally, leaving them feeling anxious and overwhelmed.

Armed with these stories, I created a checklist of 8 powerful homeopathic ingredients that I include in every tube of **Rub On Relief®** to provide deep, soothing relief on multiple levels:

- ✓ **Menthol:** Cools down hot pain
- ✓ **Ignatia:** Calms emotional pain
- ✓ **Magnesium Sulfate:** Relaxes muscle spasms
- ✓ **Lachesis Mutus:** Relieves painful swelling
- ✓ **Phosphorous:** Soothes burning pain
- ✓ **Belladonna:** Stops shooting pains
- ✓ **Rhus Tox:** Eases sprains and back aches
- ✓ **Naja:** Stills nervous-based pain

## **The Journey that Started With A Simple Mouse... Ends With Relief at Your Fingertips!**

After reading all I've had to say about the blissful pain relief **Rub On Relief®** provides, you might be excited to learn you can *try it yourself risk free for a full 90 days...*

But first, I need to let you in on something important...

You won't find **Rub On Relief®** sold by a big pharmaceutical company. You won't have to go to your doctor, get a prescription for it and stand in line at the pharmacy to get it filled.

Why?

Because ALL of our ingredients are natural substances. That means drug companies can't get a patent granting them exclusive marketing rights. Without these restrictive rights, they can't control the market. They can't make you jump through hoops and charge you outrageous sums to get the pain relief you need.

But thanks to that little fellow I told you about at the start of this letter—our pain-busting lab mouse—you don't need to rely on "Big Pharma" for your relief.

You won't have to rely on chemicals, preservatives or junk that can be toxic to your body.

You won't have to swallow massive pills that first have to pass through your stomach, kidneys and liver to get to your pain.

Instead, just apply a soothing cream directly from your fingertips to any painful area on your body. It's that simple, natural and effective.

### **Claim Your PAIN-FREE Life Today!**

As an added FREE BONUS available with select orders, I've included my booklet, "**10 Ways to TRIPLE the Effectiveness of Rub On Relief.**"

In this downloadable booklet, you'll learn my TOP pain-healing secrets on how to get the maximum benefits from the powerful ingredients in **Rub On Relief®**. Use these secrets with your very first application to help restore you to the active, pain-free life you deserve.

## Your Second Chance at All Life Has to Offer!

For many of my clients, living pain-free means being able to walk wherever they want, confidently and independently. It means not having to rely on family and friends to shuttle them to endless doctors' appointments.

It means being able to work to support themselves and their loved ones... to not have to worry about becoming a financial burden on others.

For some folks, it means taking life to the next level—living a life filled with their favorite activities like dancing, swimming, gardening, biking, hiking, traveling, entertaining... the list is endless!

Here's how a few of our satisfied customers describe their new lives after using **Rub On Relief®**:

“I've had terrible arthritis for years. My pain is mostly at night and in both knees. Over the years I have tried all kinds of remedies, from pills to ointments. The only one that works for me is the **Rub On Relief®** that I apply on my knees each night. I can now get a good night's sleep.”

—*Dr. Aaron D. Stuart, Florida*

“I use **Rub On Relief®** when I've had a longer than usual workout, or played basketball. I noticed immediate pain relief from workout soreness. It helps me continue being active like I want to be.”

—*Isaiah Fox, Florida*

“I have arthritic hips, legs, back and ankles. I have used a variety of mail order products. None of them worked. I tried **Rub On Relief®** and very quickly the pain went away. I was amazed I found something that worked for me. I apply the cream twice a day—in the morning and right before bed—it lets me go through the day easily.”

—*Violet Skov, Arizona*

What will reclaiming a life free from pain mean to you?

I urge you to experience the joy of pain relief and increased freedom by ordering today the only pain relief product that combines ***the best of nature and modern science in 10 safe, all-natural, effective ingredients.***

[Order Rub On Relief® now risk-free with my iron-clad,  
90-day money-back guarantee!](#)
